

6. Списък и копия на публикациите, участващи в конкурса, като еквивалентен брой статии за хабилитационен труд, по раздел В точка 4.

- 1 **Velkova, L.;** Dimitrov, I.; Schwarz, H.; Stevanovic, S.; Voelter, W.; Salvato, B.; Dolashka-Angelova, P. „*Structure of hemocyanin from garden snail *Helix lucorum**“ Comparative Biochemistry and Physiology - B Biochem.and Mol. Biology **2010**, 157(1), 16-25. [Линк](#) Q3
- 2 Dolashka, P.; **Velkova, L.;** Iliev, I.; Beck, A.; Dolashki, A.; Yossifova, L.; Toshkova, R.; Voelter, W.; Zacharieva, S. „*Antitumor activity of glycosylated molluscan hemocyanins via *Guerin ascites tumor**“ Immunological Investigations **2011**, 40(2), 130-149. [Линк](#) Q2
- 3 **Velkova, L.*;** Dolashka, P.; Van Beeumen, J.; Devreese, B. „*N-glycan structures of b-HIH subunit of *Helix lucorum* hemocyanin*“ Carbohydrate Research **2017**, 449, 1-10. [Линк](#) Q2
- 4 **Velkova, L.;** Dolashka, P.; Lieb, B.; Voelter, W.; Dolashki, A.; Van Beeumen, J.; Devreese, B. „*Glycan structures of the structural subunit (HtH1) of *Haliotis tuberculata* hemocyanin*“ Glycoconjugate Journal 2011, 28, 385-395. [Линк](#) Q2
- 5 **Velkova, L.;** Todorov, D.; Dimitrov, I.; Shishkov, S.; Van Beeumen, J.; Dolashka-Angelova, P. „*Rapana venosa hemocyanin with antiviral activity*“ Biotech. Biotech. Equip. **2009**, 23(2), 606-610. [Линк](#) Q4
- 6 Dolashki, A.; **Velkova, L.*;** Voelter, W.; Dolashka, P. „*Structural and conformational stability of hemocyanin from the garden snail *Cornu aspersum**“ Zeitschrift für Naturforschung - Journal of Biosciences Section C **2019**, 74(5-6), 113-123. [Линк](#) Q3
- 7 **Velkova, L.;** Dolashka-Angelova, P.; Dolashki, A.; Voelter, W.; Atanasov B. „*Thermodynamic analysis and molecular modeling of *Rapana venosa* hemocyanin – functional unit RvH2-e*“ Biotech. Biotech. Equip. **2009**, 23(2), 601-605. [Линк](#) Q4
- 8 **Velkova, L.*;** Nissimova, A.; Dolashki, A.; Daskalova, E.; Dolashka, P.; Topalova, Y. „*Glycine-rich peptides from *Cornu aspersum* snail with antibacterial activity*“ Bulgarian Chemical Communications **2018**, 50C, 169 – 175. [Линк](#) Q4
